

CSC 174 Fall 2014
Homework 1

Total: 100 points

Map the given EER into the relational model. There are three options for mapping a specialization. We talked about those three options in the class. Please use the option of “Create a table for each class (both superclass and subclass)”. Please include all the relations and views (if there is any).

Submit your results as a file to SacCT. The file can be either a .docx or .pdf.
